

Mersen at the Paris Air Show

Paris, 11 June 2015 - Mersen (Euronext FR0000039620 – MRN), a global expert in electrical specialties and graphite-based materials, today announced that it will exhibit at the 51st International Paris Air Show in Le Bourget from 15 to 21 June.

A long-standing partner to the leading subcontractors of the world's major aviation manufacturers, Mersen will showcase its aviation-related materials and electrical solutions at the event.

Mersen develops solutions and materials conform to the highest standards in the aviation industry, meeting the needs of market players on performance, light-weight design and outstanding performance in extreme temperatures and operating conditions.

Our proven expertise enables us to design cooling devices and busbars for the power electronics of the Boeing 787, the "most electrical" aircraft in history.

Come and join us at Stand F193 in Hall 2B from 15 to 21 June.
